Dear Harold;

I hope this finds you and Lil in top health and ready to give it hell in the New Year. By this time I trust your good right arm is now back in good shape ready for typewriter and machete.

Your last group of carbons and enclosures was very interesting (as are all), I especially found fascinating the Nixon and JEH memos. I beleive the "MURKIN" name was the first time I have seen it in print.

Still no news from Wallace or Wexler. Now that the holidays are almost over I will try to get in touch with both of them again.

Again my very best to all of you.

Sincerly,

Paul
